

GRHHN Spotlight:

Carrie LeStorti, Quality and Compliance Specialist

Carrie LeStorti recently began her new role of supporting GRHHN with quality and compliance activities. She is also working collaboratively with Care Management Agencies to ensure compliance with GRHHN, and NYS Department of Health (DOH) standards.

Carrie brings a wealth of experience, working for managed care organizations in a variety of roles. Most notably, Carrie supported the implementation of NYS Medicaid redesign initiatives for MVP Health Care.

“I’m very committed to building relationships with our Care Management Agencies (CMAs). I’m here to support them so they can provide the best care to their patients,” Carrie explained.

In addition to her time at MVP Health Care, Carrie worked at Optum Clinical Operations (part of UnitedHealth Group) providing analytics for various Medicare initiatives.

As part of the Quality Team at GRHHN, Carrie is also responsible for the credentialing of new CMAs and assuring that documentation is done correctly so the agencies can be reimbursed appropriately.

“I’ve been a part of the GRHHN Team for almost a year and what I’ve found is that I’m proud to be a part of such a high-quality organization. Every day I see the commitment we have to our CMA’s and to the people in our community and it makes me proud to be a part of it,” Carrie said.

A life-long resident of Rochester, Carrie supports her local food bank and with three teenagers, is very involved in her local school district. She is also an avid gardener and reports a bumper crop of tomatoes and cucumbers this year.
