

HEALTH HOMES ACHIEVE SAVINGS AND IMPROVE QUALITY

180,000 high-risk, high-need adults and children are enrolled in Health Homes, being served by 4,000 care managers through care management agencies in their local communities. As a result:

- 
- **27% reduction** in inpatient PMPM costs for Health Home members post enrollment compared to the same period prior to enrolling in Health Home (most recent data 2016-17) resulting in \$275m savings for inpatient costs
 - **11.1% reduction** in All-Cause Readmissions (a measure of readmission following acute inpatient stays)

After enrollment, individuals saw an **increase** in:

- 
- Visits to primary care
 - Medication compliance

According to NYS DOH, primary care costs **increased 23%**, and Rx Cost **increased 12%**, both of which indicate that individuals are going to their PCP and taking their medications – major goals of the program.

WHAT IS A HEALTH HOME?

A network of community-based Care Management Agencies that work to engage individuals with serious and complex physical health, mental health and substance use disorders in their local community to achieve better health outcomes, member satisfaction and overall cost reduction.

HEALTH HOME PRIORITIES:

- Preserve and maintain funding for Health Homes – this highly effective, cost-saving program cannot sustain additional cuts;
- Invest in a diverse workforce targeting recruitment, retention and training in the highest need communities; and
- Enact measures to lessen the administrative burden on Health Homes to ensure more resources are dedicated to patient care and to protect workforce from burn out.

HEALTH HOME FAST FACTS

Over the last 5-6 years individuals enrolled in a Health Home saw an:

- ✓ 11.4% improvement in follow-up after hospitalization for mental illness within 30 days statewide for health home enrollees
- ✓ 8.4% increase in adherence to antipsychotics for individuals with schizophrenia enrolled in HH (State established measure)
- ✓ 86% of Health Homes improved comprehensive diabetes care rates with a corresponding statewide 4.5% improvement rate during that time period
- ✓ 27% improvement in follow-up after hospitalizations with mental illness within 30 days
- ✓ 29% reduction in homelessness and a 37.5% reduction in incarceration from 2018 to 2019 for the same cohort of individuals, based on a representative sample.

HEALTH HOME IMPROVED MEMBER QUALITY AND SERVICES

- Expanded more intensive care management for highest risk populations.
- Improved quality outcomes despite medical complexity of patients.
- Exceeded statewide results on 20 of 24 key performance measures.
- Exceeded statewide performance for all 6 behavioral health hospital follow-up measures including: alcohol/drug dependence treatment; medication management, HIV; monitoring, and screening for sexually transmitted disease.

Health Homes improve outcomes for members by coordinating healthcare and social services which result in:

- A reduction of no-show appointments
- Increased engagement in treatment
- Support for members and their caregivers
- Member connections with culturally competent providers that understand and can meet their needs
- Address underlying social determinants of health such as housing and employment

Health Home Care Management improves outcomes across the entire healthcare system including:

- Reduction of avoidable or preventable inpatient stays
- Reduction of avoidable emergency department visits
- Improved health outcomes for persons with mental illness and/or substance use disorders
- Improved management of disease-related care for chronic conditions, including HIV
- Improved connectivity to preventive care and appropriate outpatient providers
- Focus on social determinants of health such as homelessness, housing, lack of food security, employment and benefit connectivity
- Individuals enrolled in Health Homes also saw improvements in rates of chlamydia screenings, colorectal cancer screenings, follow-up after emergency department visits, engagement in comprehensive HIV/AIDS care including viral load monitoring, medication management for people with asthma and overall prevention quality of care (HEDIS measure).

THE ROLE OF CARE MANAGEMENT AND HEALTH HOMES

Care managers work with adults, children and their families who enroll in a health home to develop an individualized comprehensive plan of care, and then help them navigate the health care delivery system, schedule appointments, arrange transportation and communicate between health care providers.

Care managers also provide education about how to manage chronic conditions, taking medications properly, and understanding often complex discharge plans, next steps and follow-up after a hospitalization.

The Care Management Agencies in Health Homes networks are experts in providing care management services in communities across the state.

The care managers are located in communities where individuals live and provide culturally relevant and responsive support to their members. Care Managers meet members where they are most comfortable, providing person-centered support and coordination of services. By using individual member health data, including utilization and outcomes, care managers can connect the individual to appropriate health and social services in the least restrictive, most cost-efficient setting.

Our dedicated Care managers also help adults, children and families enrolled in Health Homes in other ways such as:

- ✓ Medicaid eligibility determination
- ✓ Enrollment and renewal of benefits
- ✓ Assessing eligibility and completing applications for other public benefits
- ✓ Securing safe and affordable housing, and
- ✓ Connecting individuals to social services.

WHO WE ARE:

The **Coalition of New York State Health Homes (CNYSHH)** represents 30 Health Homes across every region of New York State serving Health Home membership statewide working collaboratively with the New York State Care Management Coalition.

The **New York State Care Management Coalition** represents thousands of care managers from across New York State's behavioral health community and offers them the opportunity to become one voice on many issues facing the clientele and the agencies served.
